10:11:53 From Deborah McPherson to Everyone:

watermelon volunteers very competitive!!

10:12:05 From Jacqueline to Everyone:

We don't have a huge garden area, only a modest patio area. Need to know how to plant in a raised bed with the right kind of soil.

10:12:12 From Paula Thomas to Everyone:

Right now, I can't even imagine gardening as "fun"

10:12:50 From Kowanda to Everyone:

I love working in the garden. I stream a radio station and do whatever work I need to do.

10:13:09 From Else to Everyone:

I recently starting harvesting dandelion leaves and flowers from yard after reading how nutritious they are.. Fell in love with them. Just planted tomatoes, chives, + cucumber.. Very interested to also learn about what other 'weeds' are edible and/or medicinal..

10:13:36 From Leon and Peggy to Everyone:

Need to do container gardening due to so many tree roots in garden area. Have not been successful so far. Where can I find information to be successful? Thanks

10:13:42 From Lauren | GYOV Support to Everyone:

@Else - what an awesome adventure you're on 😊

10:13:56 From Jacqueline to Everyone:

How are dandelions edible? Just the leaves or also the flower?

10:14:07 From JoAnn Fox to Everyone:

Just moved to the PNW, on the coast, and am overwhelmed with everything blooming and growing here!

10:14:08 From Lauren | GYOV Support to Everyone:

@Leon & Peggy - I would LOVE to help you with this journey. You can email me at Support@GrowYourOwnVegetables.Org

10:14:16 From Janice to Everyone:

10:14:20 From Leon and Peggy to Everyone:

Thanks

10:14:29 From Max to Everyone:

I am working my way through your course that I got as part of a package from Food Revolution Network 2024. It has stuff I never knew, even after a lifetime of growing veggies.

10:14:39 From Lauren | GYOV Support to Everyone:

Green Thumb Essentials

That's awesome @Max!

10:14:39 From Michael to Host and panelists:

Thanks, Denise!

10:14:40 From Kowanda to Everyone:

Oh yes! Plants died. But, I'm trying again.

10:14:56 From Lauren | GYOV Support to Everyone:

We always learn from the plants, even if they don't fruit or make it through the season

10:15:14 From Ronelle/Lioness6271 to Everyone:

@Jacqueline - both. My former neighbor made dandelion wine from the flowers and it was the most delicious wine I've ever tasted in my 50+ years.

10:15:46 From Paula Thomas to Everyone:

I'm doing this because our current administration seems to be taking us toward a time when we will need to be totally self-sufficient and gardening will be absolutely necessary.

10:16:33 From Else to Everyone:

@Jacqueline.. All of dandelion is edible.. So far I have just been using the leaves + flowers in cooking or smoothies etc.. Do google on them to see how nutritious they are .. pretty amazing..

10:16:41 From Denise Beins to Everyone:

Who has experienced hearing from your garden/plants?

10:17:27 From Janice to Everyone:

Every year I learn something new

10:18:18 From Else to Everyone:

I am also interested in conditioning soil and what plants need .. When to add things like coffee grounds or what else can be done to enrich soil.. (rather than buy soil from hardware store etc..)

10:18:28 From Rachel to Everyone:

First time sowing only seeds, not starts. No idea how this will work. Wish me luck.

10:19:33 From Patrushkha to Everyone:

Good luck!

10:19:33 From Kowanda to Everyone:

I love it! I want to just be able to sit in my garden through all it's stages and enjoy the garden.

10:20:27 From Lauren | GYOV Support to Everyone:

And you will @Kowanda!

10:20:58 From Denise Beins to Everyone:

What do you want to feel from your garden?

10:21:00 From Lee to Everyone:

Was just pulling some weeds from my garden with bare hand and it feels good touching the weed and sun warming my back

10:21:18 From Cindy Alexis to Everyone:

I want to feel joy, success, and fun this season with my garden

10:21:31 From Kowanda to Everyone:

- 10:24:33 From Corina to Everyone:
So the garden is my family, to love and nurture then I'm to eat my family. Works for me 😊
- 10:24:51 From Paula Thomas to Everyone:
The thought of gardening triggers major anxiety. I'd love to find a way to get past that. Even listening to this is starting that anxious feeling.
- 10:25:32 From Janice to Everyone:
As a former teacher I did gardening with my kids and kept a small window sill garden in my apartment. Now I have a home and a in-ground garden.
- 10:25:52 From Annetta to Everyone:
I want to learn plant- so much fun trying to see from child
- 10:28:35 From Rachel to Everyone:
For anxiety, start small with one container plant and watch how beautiful nature is. Don't overdue it.
- 10:28:59 From Kowanda to Everyone:
I like that idea, @Rachel.
- 10:29:47 From Lauren | GYOV Support to Everyone:

- 10:35:16 From Kowanda to Everyone:
WTG, Max. Bamboo is tough to manage.
- 10:35:23 From Elisa Aisenstat to Everyone:
Save the bamboo to stake your tomatoes!
- 10:36:35 From Max to Everyone:
